CARPOOL PARKING LOTS

The Ministry of Transportation and Communications (MTC) began building carpool parking lots in 1979 to provide commuters with safe, convenient places to park, and to promote energy conservation through ridesharing. The lots are adjacent to major highways, and are for the specific use of persons wishing to meet and carpool, vanpool, or bus to their destinations.

FACILITIES

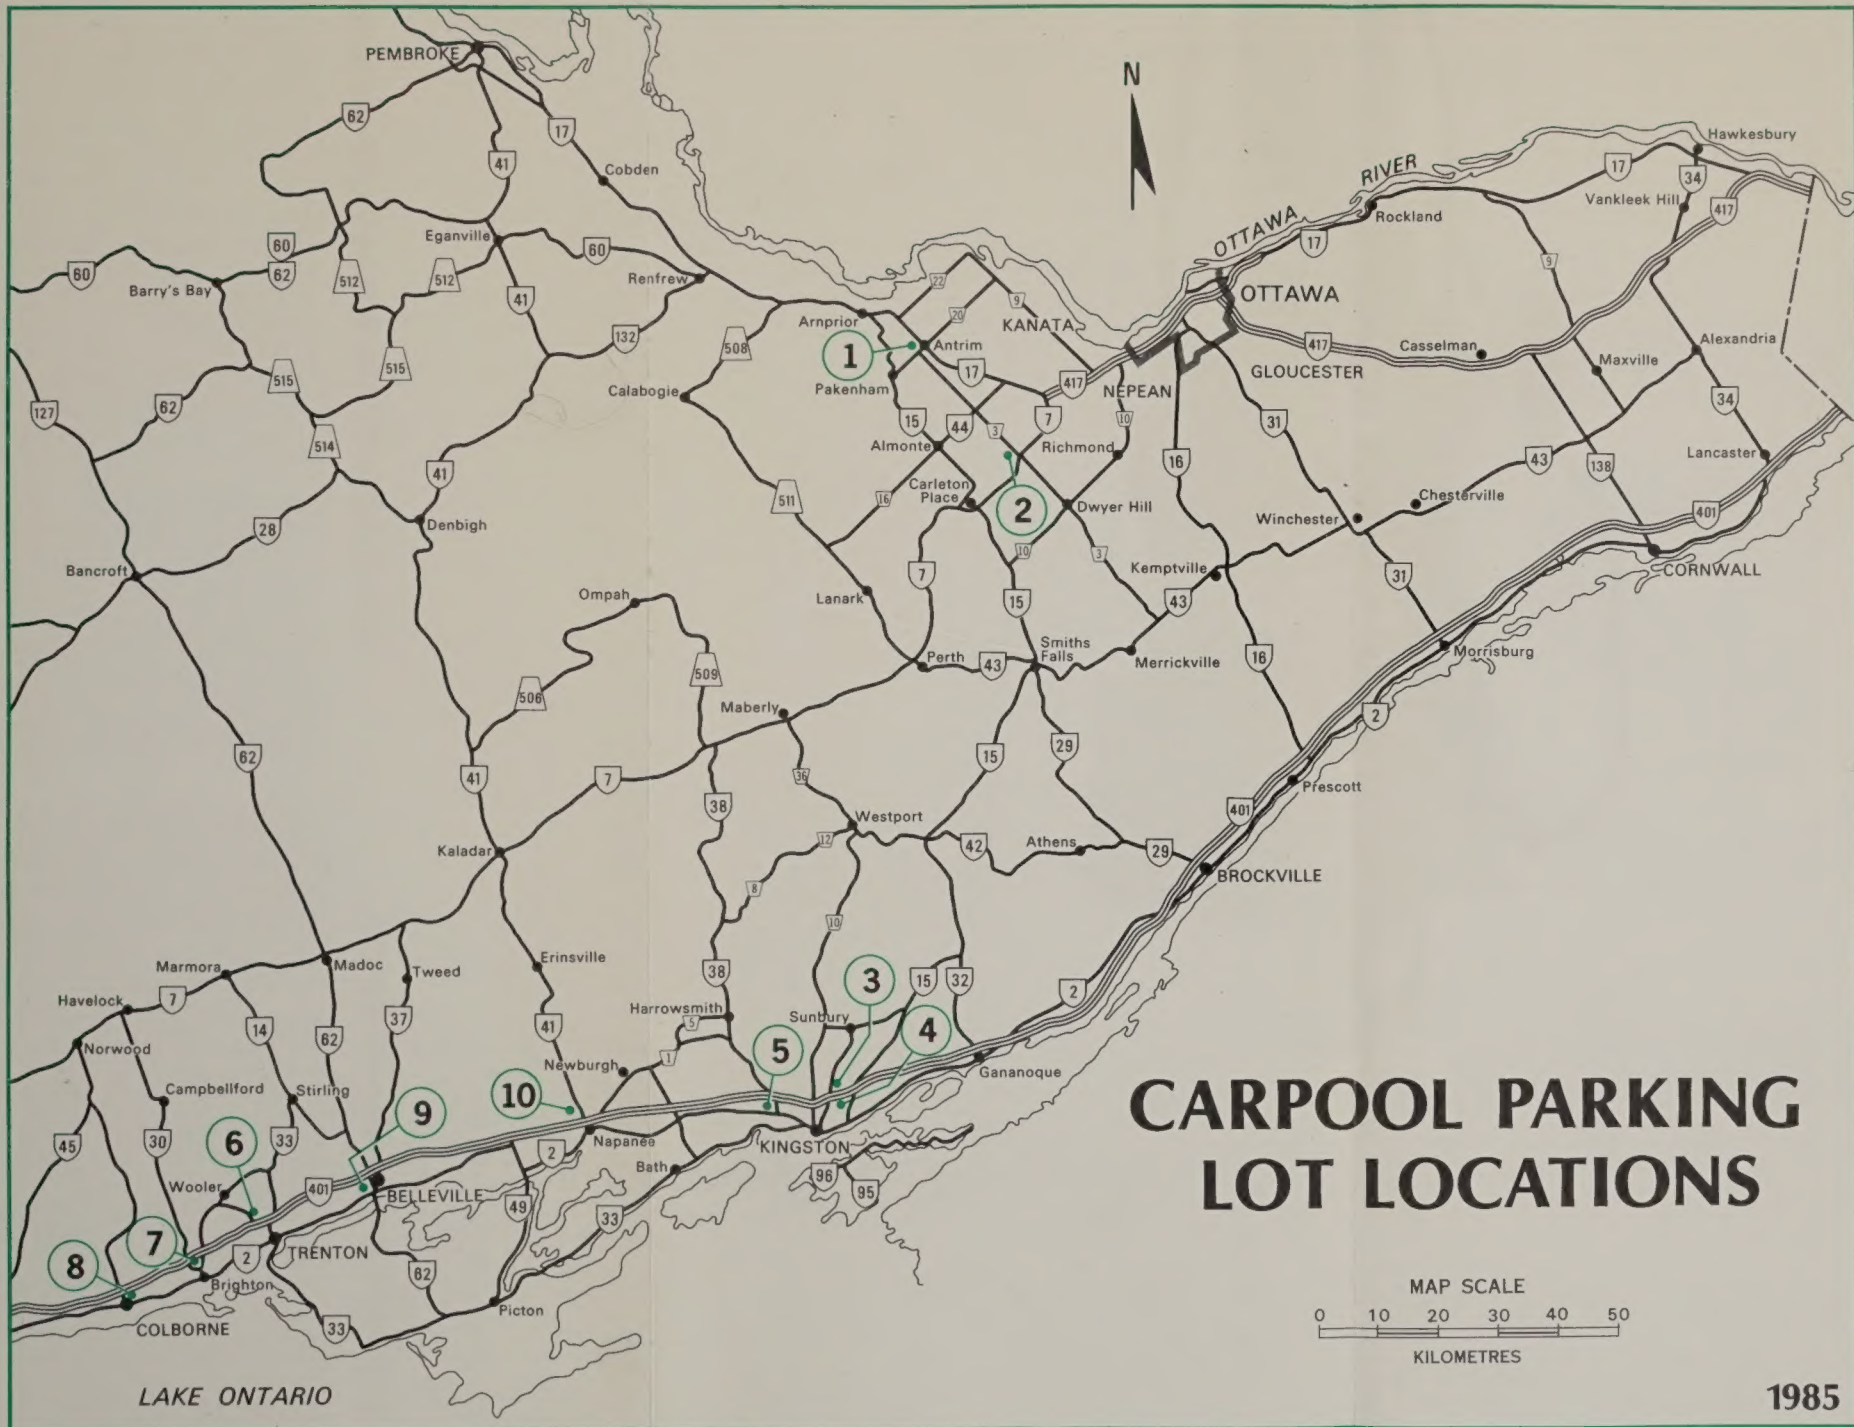

Entrances to the lots are marked by the familiar parking lot sign. Lighting and a pay telephone have been installed at most parking areas, and regular maintenance (including snow removal) is carried out by MTC. Some of the lots are served by commuter bus service.

WHO CAN USE THEM?

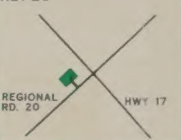

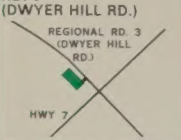

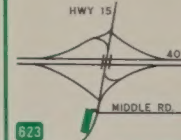

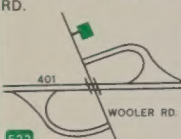

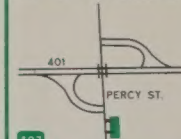

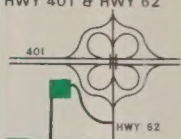

Anyone. No registration or permit is required, and there is no charge for use of these unsupervised lots. Just drive in and park. Overnight parking is permitted.

The Ministry of Transportation and Communications accepts no responsibility for loss or damage to vehicles or their contents.
